

# ANARCHISTS OF CHICAGO SAID TO HAVE PLAN

## Of Attempting The Assassination Of Both President Taft And President Diaz At El Paso Tomorrow.

### SECRET SERVICE MEN DISCOVER IT

#### At One Blow The Presidents Of The Two American Republics Were To Have Been Put Out Of The Way

##### By The Red Leaders—Plans All Known.

(BY ASSOCIATED PRESS.)  
Chicago, Oct. 15.—The Chicago Journal today declares an anarchist plot directed from Chicago by men planning to assassinate President Taft and President Diaz at El Paso, Texas, tomorrow has been discovered by the secret service men here. The Journal declares:  
"For the past two weeks it was learned that meetings have been held by anarchist groups in every large city of the country but assassination plans, according to government men, were completed in this city."  
"Four of Chief Wille's men disguised as laborers attended the socialist meetings here last night at which the execution of Ferrer in Spain was commemorated."  
"The Journal declares the secret service men have been brought here from several other cities to assist in the investigation. It is asserted a cancellation of public meetings of the kind of the two governments was made at the advice of Wille."  
The Washington End.  
Washington, D. C., Oct. 15.—Chief Wille has entire charge of the work of protecting the presidential party, and has been directing matters personally and has been at El Paso for several days.  
He has not communicated to the secret service officer as far as can be learned, anything as to any unexpected condition of affairs at the scene of the coming presidential meeting.  
The public feature ceremonies were cancelled at the instance of the state department and this was because Mexico desired the meeting to be private.  
Denz's Story.  
El Paso, Texas, Oct. 15.—Secret service men now in the city deny that a plot has been discovered to assassinate either of the presidents.

### OILER IN MILL IS GIVEN BIG DAMAGE

Awarded \$4,500 for injuries sustained while working in defendant's mill.  
(BY ASSOCIATED PRESS.)  
Marquette, Oct. 15.—In circuit court here in the case of Seward Houg, versus the Girard Lumber company of Duluth, Wisconsin, a verdict has been returned giving the plaintiff damages amounting to \$4,500. Houg was an oiler employed in the lumber plant of the company and while employed in the regular discharge of duties, his foot became caught in the saw-screw and he had the instep of his right foot both badly cut and bruised but the use of it was practically destroyed.

### FIFTEEN KILLED: MUCH DAMAGE TO SHILOH CEMETERY

Storm Sweeps Over Tennessee Last Night Doing Considerable Damage.  
(BY ASSOCIATED PRESS.)  
Memphis, Tenn., Oct. 15.—A special to the News-Sentinel from Acton, Tenn., early today, says fifteen people were killed at Humboldt, Tenn., where the national cemetery of the battle-field of Shiloh is located, when a storm passed over that section last night. The damage was very heavy and the town sustained considerable loss.

### BURGLARS ROBBED RACINE RESIDENCE

Went Through Home During the Absence of the Family Last Evening.  
(SPECIAL TO THE GAZETTE.)  
Racine, Oct. 15.—During the temporary absence of the family of Elmer Marshall James Cape from Acton, Tenn., early today, burglars entered the house and ransacked it from cellar to garret, carrying off carpets, etc. The robbers took about \$100 worth of jewelry, a stick pin, watch and a bracelet.

### INSANE PATIENTS CREATE SENSATION

Believe They Are Sane And Ask for Discharge From the Asylum at Racine.  
(SPECIAL TO THE GAZETTE.)  
Racine, Oct. 15.—There is a sensation in the Racine County Insane asylum, west of this city which has developed in nearly all the patients believing they are sane. It appears that Dr. Norstrom, the asylum physician, made an application to the circuit court for the discharge or parole of three patients on the ground that they were sane.  
The matter came up before Judge Heck this morning. Judge Heck held that it was not for the best interests of the state to allow any sane person to remain in an asylum after they had been declared sane. He said he would issue orders for their release as soon as provision could be made for their care.

San Domingo, Oct. 15.—A special session of the Dominican Congress convened today. Tariff revision and other questions of importance are to receive attention during the session.

### ALLEN ARRESTED BY FEDERAL OFFICERS

Mineral Point Bank Official Is Taken on Charge of Embezzlement.  
(BY ASSOCIATED PRESS.)  
Mineral Point, Wis., Oct. 15.—Philip Allen, Jr., vice president of the First National bank, was arrested today charged with embezzlement of \$100,000 of the bank's funds. Allen is 30 years of age and is a native of Illinois. Mr. Allen is sick with shaking palsy and is said to be in a very critical condition. There is much speculation as to what percent the bank will be able to pay. It is said by officials of the bank it will pay dollar for dollar, but business men generally think it will only pay sixty cents on the dollar. The books are being thoroughly gone over by the government officials.

### FEDERAL OFFICIAL FOUND DEAD TODAY

### MORE EVIDENCE OF ITS SUCCESS

CITIES HAVING TRIED RULE BY COMMISSION ENTHUSIASTIC. IS ENDORSED ON ALL SIDES

The Great Benefits Derived from This Form of Government Clearly Shown in Letters Received.

Each mail-bag brings additional endorsement of the rule by commission and cities where it has been tried are most enthusiastic over the results that can be derived by this form of government. It is remarkable that the letters should so universally endorse the change from the old partisan political methods to the more modern idea of running a city's business just the same as any corporation is run.

Those interested in looking into the plan of commission rule will find the following letters most interesting. They come from different states where different conditions exist and yet they all tell the same story in substance—that the new methods are far better and give better results in all branches of city government.

The following are additional letters in answer to the questions asked of the Mayors of the different cities and will prove interesting reading:

Greenville, Texas.  
1.—How long since you adopted the commission form of government?  
Since April 10, 1907.  
2.—Can you state either approximately or definitely the saving to taxpayers over the former system of government?  
Savings is in the attention paid to municipal affairs. Can't say that there is any saving in amount of taxes, but the improvements with regard to streets and city property in general show a favorable gain over conditions as they existed under the old form.  
3.—Are the people generally satisfied with the present form of government and in your opinion would they return to the old way?  
The work and the public utility yearn for the old style.  
4.—Is law and order of the community better preserved—the police department handled more favorably?  
It is.  
5.—Are the public utilities dealt with to better advantage?  
Yes; no tax collected for municipal plants.

JOSEPH P. NICHOLS,  
Executive Department,  
City of Wichita,  
Wichita, Kansas,  
October 15, 1909.

The Gazette,  
Janesville, Wis.

Dear Sir,  
Your letter received and will say that the mayor is out of the city at present. No doubt if he was here he could give you a satisfactory explanation of the commission form of government. We have had "printed" a pamphlet entitled "The Wichita Plan of City Government," which I am mailing you today, in hopes that it may give you some idea of the commission plan.

With regard to your inquiry will say that Wichita has been operating under the commission form of government since last April.

As to the taxes, I cannot make any statement as to the saving to the taxpayer as yet.

Extensive improvements are going on all over the city. Lots of building and street paving being done.

Everyone seems to be well satisfied with the commission form of government.

I think the police department is trying to enforce the law, and that the conditions are better than they have been heretofore.

More business is taken care of in the same length of time at the regular meeting of the commissioners, under the new plan of government than under the old.

In the future if we can be of service to you, let us know.

Yours very truly,  
MADGE WRIGHT,  
Stenographer.

Kansas City, Kansas.

Not yet in operation.

Boise City, Idaho, Oct. 7, '09.

The Gazette,  
Janesville, Wis.

Dear Sir,  
I have your letter of the 30th ult. regarding the commission form of government. I am not sure that we have the commission form of government. We have a mayor and four councilmen elected at large. The mayor has the absolute appointing power. The entire city administration is wholly within the power of the mayor, without any administrative power except that power of impeachment. Our principal committees are, first, streets and alleys; second, fire and water; third, (Continued on Page 10.)

## ELIZA MOHE IS IN THE TOILS

WISCONSIN'S CASSIE CHADWICK  
ARRESTED AT ROSCOE.

### WAS JAILED HERE IN 1906

Is Now Charged With Obtaining \$200  
In 100 Lbs. of Honey From Iowa  
Woman Under False Pretenses.

Mrs. Elizabeth Mohe, known as the "Cassie Chadwick" of Chilpewa county, who is alleged to have "fenced" victims in the western portion of the state of over \$30,000 prior to her arrest on Oct. 15, 1909, for obtaining \$200 in 100 lbs. of honey from Iowa woman under false pretenses, was taken into custody at Roscoe, Ill., last Tuesday by Sheriff Clark of West Union, Ia., and Deputy Sheriff Abbot, Collier on the charge of obtaining money under false pretenses; collapsed when she reached Freeport that evening, and was removed to the White Sulphur Springs, Ia., where she was taken to the hospital. This time she is charged with having represented herself either as the agent of some charitable institution or as a wealthy prospective purchaser of a farm and having thereby obtained a check for \$200 and one hundred pounds of honey from some Iowa woman.

On arriving from her collapse at the hospital Mrs. Mohe is said to have summoned Atty. R. R. Tiffany and to have made her will.

She is a rather dull looking German woman past middle life and lived with her husband and a little boy in the lot prior to her incarceration in the local jail. She won the hearts of ex-Sheriff Ira U. Fisher's family and obtained \$20 from the latter's mother, just before her release, which sum was never returned. The sheriff, who paid her the money, took a mortgage on her chattels as security, had to hold an auction sale to get back the cash.

In Beloit, just before the Walsh banks in Chicago got into trouble, Mrs. Mohe represented that she had on deposit there the sum of \$2,000 in one of those institutions and that she was going to loan Mrs. Hevey \$1,000 to build a home. The latter was therefore glad to loan her small sum of money from time to time.

On mortgages on her 160 acre farm near Stanley during the years 1902 and 1903 she secured over \$10,000. Some of the victims were: James A. Vance, \$3,000; Mary Herbert, \$4,000; Henry Kunz, \$1,500; Matthew Chase, \$1,000; Susan Bowersad, \$400.

O. W. Benn of Abbottsford loaned her \$1,100 on a chattel mortgage and numerous others are supposed to have been "fenced" for smaller amounts. She served eight months in jail in Barron county for obtaining a horse under false pretenses from Henry Fish on Dec. 2, 1904. In an action tried against her at Wausau the jury disagreed.

Mrs. Annetta J. Shaw wrote to District Attorney J. L. Fisher in 1906 that she had been victimized for \$25 and that the Mohe had taken with them a boy of hers from 5 to 6 years old when they left the western part of the state. The boy was taken from her to the W. C. Y. U. home in Eau Claire in December, 1906.

## INSURANCE AGENTS BATTLE FOR TITLE AT EDGERTON TODAY

Championship Game Played Today Between Local and Special Insurance Agents.

Edgerton, Wis., Oct. 15.—With insurance agents from all parts of the state, and representing almost every insurance company doing business in Wisconsin, assembled in the city today for the one event of the year in insurance circles, and Edgerton as a city and in fact every citizen extended a cordial welcome to the visitors and did everything possible to make the occasion one to be long remembered. Every train brought representatives of both special and local agents eager to hold the credit of their department.

The main event of the day, in fact, the cause of the gathering, was a ball game at the Driving park, between the special and local insurance agents for the championship of the state. The game was the result of a challenge made by Henry Johnson, a local agent of Edgerton, who after witnessing the special win from the Milwaukee agents at a picnic last month, stated that he could produce a team of local agents that could defeat the team of special agents.

A purse of \$200 has been raised which will go to the winners. Among the notable who assisted in making the event famous, in addition to the players, are George R. Crossley, of Milwaukee, who was named as official stakeholder, and Assemblyman L. C. Whitton, who consented to assume the arduous and dangerous duties of umpire.

As a fitting preliminary to the game, practically all the city officials and leading citizens, in addition to many prominent local and special insurance agents, participated in a parade which passed through the main streets at one o'clock. The procession was headed by the Edgerton coronet band and was made up of carriages and automobiles containing the city officials and leading visitors.

## SUGAR COMPANY TO OPEN ON TWENTIETH

Will Probably Finish Their Winter's  
Run by January First at  
Latest.

Owing to weather conditions which were unfavorable to the ripening of the sugar beets the Rock County Sugar company did not open their plant this morning and begin their slicing and marketing of sugar, but will wait until the 20th, when they hope all will be in readiness. Unlike tobacco the sugar beets need a frost to concentrate the sugar-making qualities of the beets and as this did not come until the present week they are to be given more time to develop.

Manager Osburn stated this morning that he expected to open on the 20th of the present month. "We have increased the factory's facilities for slicing beets during the past summer," he said, "and expect to be able to slice at least a hundred tons more a day than in past seasons. We have nearly five thousand acres of beets which will average twelve tons to an acre, or roughly speaking, some sixty thousand tons of beets to slice and convert into sugar."

"As we estimate now, we will be through slicing before Christmas and will finish our sugar run along in the first week in January. We will employ in the neighborhood of four hundred hands during the season and run night and day as in the past. Of course weather conditions may prevent our opening on the 20th, but I expect to be running by that time."

Mr. Osburn went on to explain that sugar beets need a frost to ripen and develop the sugar qualities. That usually this occurs during September but this year instead of freezing nights it came off rainy, and this started the beets growing again and not developing the sugar. However, the frost has now come and if it is followed by sunny days and cold nights will bring the crop into good shape.

Sixty thousand tons of beets at five dollars a ton, and average price, means that aside from the salary paid to employees at the factory that nearly three hundred thousand dollars will be put in circulation in this and adjacent counties before Christmas. With the salaries it will bring the total up to close onto a half million dollars.

Foreign workers will be brought here for the unloading of the beets and doing the rough work at the factory but the factory workers will in the most be local men who have worked there during former years. The foreigners will live in huts on the grounds of the company while the rest will find homes in the boarding houses.

A force of seventy-five has been at work at the factory all summer and this will be augmented as fast as now hands are needed so that by the twentieth the full force will be working. The plant has been entirely renovated and remodeled to meet the new requirements and is in first-class shape.

The man with something worth selling must first compel interest and then emphasize the keenest points of whatever he has to sell. Emphasizing these points in the newspaper is the best advertising because thousands will read it in a single evening.

Do you know that your local newspaper is just about as anxious for you to have good advertising copy as you are to furnish it? It is to their interest as much, almost, as it is yours. It means money to both of you.

## ...REAL... APPRECIATION

Give Them Well-Cooked Food  
Children Especially Need It. Use  
ROUND OAK CHIEF  
RANGE

It is not the good, dependable range like the ROUND OAK CHIEF that causes the troubles in the kitchen. No—not much you know the kind—that runs up the intellect—whiten the hair—and cause dyspepsia. No need for us to describe them, we have troubles of our own—but it WAS A CHIEF RANGE—at a cheap price and that was what sold it—never a word about quality—except a lot of hot air generalities, that go with each one, of course, and then you ask, "What's the use?" THERE ARE genuinely good dependable steel ranges, good from start to finish—and at the head of the procession stands Heekwith's Chief. Take any item in the construction of a steel range and we will show you that it is better in the Chief than in any other of its kind. The Chief is a range that stands pulling apart and a close unqualified inspection. You can see with your own eyes just how carefully, good and strong every part is made, and it all means—THE WORTH OF EVERY DOLLAR YOU PAY FOR IT. You are invited to call and see the Chief at our store. We can't half tell the story here—haven't the space. Would like you to see the range booklet—it's free, and the finest booklet of its kind.

HOW IT WORKS IN DES MOINES

The proof of the pudding is in the eating, and so the best argument in favor of city government by commission comes from cities which have tried it out. Des Moines, Iowa, is a city of this class and this is what has happened as related by the "City Hall."

"Des Moines" first year under the commission form of government has closed after twelve months of the most efficient and economical conduct of municipal affairs the city has known.

"For the second time in its history Des Moines has lived within its income. Starting under the handicap of a \$180,000 debt by former administrations, the commission will end the year without exceeding a single appropriation, and with money left over in several of the funds. Old debts were paid off by a bond issue, but none of the money derived from the sale of bonds was used in paying current expenses.

"Not only has the city been managed more economically than ever before, but more efficient service has been rendered in every department. The streets have been kept clean, paving has been laid according to contract, civil service has been installed in all departments, the efficiency of the police department has been increased, a new system of accounting has been installed—in fact, the entire municipal government has been placed on a business basis.

"The most spectacular of the reforms instituted under the new administration was the wiping out of the 'red light district' by Councilman J. H. Hamery, who is head of the department of public safety. He issued an order notifying keepers of immoral houses that they could not operate in Des Moines after September 15. On that day every such house was vacated.

"Hot machines have been driven out by Superintendent Hamery, and it is generally conceded that Des Moines is one of the most orderly towns in the country. Saloons are required to live strictly up to the letter of the state law.

"With suppressing disreputable houses the women arrested at frequent intervals in order to secure the commission for going in their bonds. Superintendent Hamery, decided that the two evils were inseparable. As a result professional bondsmen are now doing only legitimate business in the police court.

"Among other accomplishments of the new administration might be mentioned the agreement with the railroad for the building of the viaduct, over which the city and the roads have been quarrelling for twenty years. Plans have been accepted and work on the structure soon will begin.

"The five members of the commission receive combined salaries of \$15,000 a year, and it is estimated that enough money has been saved by stopping small wastes, due to loose business methods, to make up that sum. A business system has been introduced in all departments and the city hall has been changed from a loafing place for politicians to a place resembling the offices of a large business concern. An entirely new spirit pervades it.

"The city hall is free from political and political influence. The non-partisan nomination and non-partisan

election put the old political machine in the junk heap and there have been no city jobs filled by election deals.

Only competent men hold the places and numerous discharges have been made, showing that the incompetents are rejected without delay.

"The success of the Des Moines plan has been so spectacular that it has attracted attention not only in every state in the union, but in many foreign countries.

"Hundreds of apparently small accomplishments that in the aggregate amount to a great deal have resulted from the commission plan. Others that do not appear at the present time will present themselves as the result of rearrangement steps now being taken.

"Many benefits pass unnoticed, but it is a generally recognized fact that the city has been more economically managed in every way and better results have been accomplished in every department under the Des Moines plan than the city has broken up the 'bond shark' business. Indeed, it was the practical of the 'bond shark' which led to the suppression of the 'red light district.' The bondsmen had the women of the under world at their mercy.

"All this in 12 months and the work has but just commenced.

The city of Keokuk, Iowa, with a population about the size of Janesville, recently voted on the commission form of government, and the question carried by a majority of four to one. The cities of Des Moines and Cedar Rapids are object lessons for the state, and for that matter, the country at large, as both are making a wonderful record for economy and intelligent administration under the commission plan.

Continue to read cold plain facts about city government by commission and you will be convinced that it is the right system. It is the only plan which insures a business administration and there is every reason why the public business should be conducted as intelligently as a private business. Are you ready to favor the plan when opportunity is offered?

Minister Crane, who got as near China as San Francisco and then returned because he talked too much, will gain nothing by attempting to shrink responsibility by claiming that President Taft was his authority. "It is a wise man that knows when to keep still and the Crane episode, both before and after," indicates a lack of wisdom.

The people of Durand, Wisconsin, are paying five dollars a throw for using curs, words, as the mayor is rigidly enforcing an anti-swearing ordinance. The city treasury was enriched \$25 one day last week and the victims went out of town to express their feelings.

Is there any reason why Janesville should not double its population in 10 years. It will if every man becomes a booster and lends a hand.

When every man becomes a booster the city will grow. United effort always means success. Are you a booster?

## PRESS COMMENT.

### Time Yet.

The Eau Claire Leader remarks that: "So far Oshkosh, Racine, Milwaukee, La Crosse and Madison are willing to furnish the next governor. Yet we claim Wisconsin to be a great agricultural state."

### Wear Small Hats.

The Green Lake Gazette notices that: "The school teachers of Madison have caused an ordinance to be passed compelling property owners to trim their shade trees to a point eight feet above the ground. Without regard to the teachers in particular the move is a good one and the rule should be enforced in all cities."

### Still Land Left.

The Milwaukee News has discovered that with "The passing of the public domain—over 2,000,000,000 acres have been given to the first comers—will effect immediately the political and social relations of the American people, but its influence will be world-wide. The safety valve has been closed."

### They Carry Guns.

The Racine Journal says: "There is no feeling in Texas. In December the state is to sell at auction all plants of the Waters-Peters corporation that the business of the corporation be settled up under the law."

### Reaches the Root.

In the Evening Wisconsin is found the attack upon "This special plan of endorsement of the white plague through the schools strikes at the roots of the plague—unsanitary housing and neglect of children—and doubtless if it should be generally adopted valuable results will be achieved."

### Results Count.

Up at Tomah the Journal says that the "Wisconsin crops now almost harvested have seldom been more satisfactory. Secretary John M. True of the state board of agriculture, reports conditions excellent nearly all parts of the state. The frost of early September was quite general, but not severe enough to do much damage except in a few sections."

### One Sure Way.

The Marinette Eagle-Star has discovered: "It is just as true as ever that the way—at least one way—to a man's heart lies through his stomach, nor is there anything necessarily discreditable either to the man or to the woman who cooks the palatable food designed to win his regard. Every thing depends on the proper nourishment of the body. Food is the ultimate basis of life and one's energy, efficiency, contentment and all desirable things depend on properly cooked food. No chronic dyspeptic can be either successful or happy. All success to the practical cooking schools."

and to what is still better, the old home kitchen."

Be an optimist and look on the bright side of life. It is the best tonic yet discovered for dyspepsia.

The Janesville street railway boats no railway several points. It not only gets there but a ride from the brewery to the cemetery is a sure cure for indigestion. Liver pills are not in it.

Geo. Hessepauer of Underhill, Wis., visited with his sister, Mrs. Geo. Zanzinger, Tuesday in Willowdale.

(Copyright, 1909, by George Matthews Adams.)

Now the nights are growing longer, and the frost is in the air, and it is time to hug the fire in your trusty rocking chair, with the good wife who sits beside you, feed life into the energetic children, play the dominoes with your husband, O, it is nice to look around you, and to feel that you're a kins, that your coming home at evening makes your joyous subjects sing! So you read some twenty chapters of old Gibbon's dope on Rome, and you know what human bliss is in your humble little home! There is really nothing better in the way of earthly bliss, than to tiddle home at evening, and to get a welcome kiss, and to know the kids who greet you at the pea-green garden gate, have been waiting, broken-hearted, that you were two minutes late! There is nothing much more soothing than a loving woman's smile, when she sees your knowledge climbing over the bargain counter still! If you don't appreciate it, then the bats are in your dome, for the greatest king in living is the monarch of a home!

## Save Your Teeth

It is better to save teeth than to have them pulled. One tooth of your own made sound is better than a basketful of artificial teeth.

It is useless for you to delay having your work done now, simply because you fear to sit in the dentist's chair.

My office is provided with the best modern equipment and I am able to do your work quickly and with a surprisingly small amount of pain.

If your teeth must be extracted—my method is painless.

## Coast Sealed Oysters

These oysters are the famous Narragansett Bay, Blue Point and Rockaway brands and are received in Janesville in sealed carriers. They have been packed solid, making one pint of Coast Sealed oysters go as far as a quart of "watered" oysters. No ice comes in contact with the oysters at any time, it being packed on the outside of the carrier. Being sealed and shipped in this way they retain their natural flavor and are really less expensive than in former years as they are ALL OYSTERS and no water. This insures sanitary shipping.

All grocers have Coast Sealed Oysters.

WE WHOLESALE ONLY.

## THEATRICAL WAR IS A BENEFIT TO CITY

Struggle Between the Shuberts and Theatrical Trust Brings Finn Shows to This City.

While the Shuberts and the so-called theatrical trust, known as the Klaw & Erlanger combination, are fighting it out on the modern and scientific lines of exterminating each other, Janesville is reaping the harvest of a fine line of theatrical attractions.

Manager Myers has been criticised for bringing so many good attractions to Janesville in such close proximity. It is not his fault, however, as the two big combination leaders are looking for their shows for a war which is being waged right merrily all over the country. Take for example next week's attractions: Monday Janesville has the opportunity of witnessing one of the finest musical comedies on the stage this season in Jefferson De Angeles in "The Beauty Spot."

Mr. De Angeles is a stranger to Janesville audiences and but for this theatrical war would not play here. The manager is tied up with the Shuberts and they have booked him for this city. The play is one that has attracted attention wherever given and just closed a week's run in Milwaukee. De Angeles is a polished actor and his company one of the finest that can be secured. The music of the opera is fine and the whole attraction worthy of notice. On Tuesday the trust puts in an appearance with its production of "The Golden Girl." This is the play which Mort Singer is sending out and is said to be one of the newest of comic operas that is on the road this year.

Then comes "Little Johnny Jones," written by Cohen, and one of the cleverest little acts seen on a Janesville stage—another trust show. Later in the month comes "Pudd in Pull," an attraction that plays his cities almost exclusively, but owing to the war is to be seen in Janesville. Manager Myers is turning down offer after offer from these two combinations, as his bookings are already full and Janesville benefits.

**TWENTY-FOUR HOUR SYSTEM IS GENERALLY APPROVED**

That the twenty-four hour system of keeping time would be a distinct advantage over the present way is the contention of many railroad men and it is believed that in view of its advantages, it will ultimately be adopted on all roads. The new system is in use on a few roads at the present time and has met with the greatest success. Were it adopted, it would mean that the watches used now, and that the hours would run consecutively up to twenty-four. With this system, there would be no morning or afternoon time to conflict. For instance, when a watch would register 5:15 p. m. at the present time, under the new system it would be 17:15 o'clock. There has been no definite action taken in the matter, but should the new system be adopted, it would undoubtedly meet with the approval of the men after the slight confusion incident to getting familiar with the new method had passed.

Engineer Coen and Fireman Hackshaw came up on an extra from the south last night with engine 1327 and displaced Engineer Kauffman and Fireman Crum on the seven a. m. switch engine.

Engineer Clark reported for work on 51 this morning. Engineer Cole who had his place went on the board.

Engineer Fisher brought 398 down last night with engine 337 which was sent to the Chicago shops for repairs this afternoon.

Fireman Gordon was taken sick this morning and Fireman Davey took his place on 322 with Engineer Garbutt.

Engineer Gostlund took the seven o'clock switch engine this morning and Kauffman went back on 534 and 511, displacing Fireman Lewis.

Engineer Johnson tied up at Clinton Jet, this morning with engine 1343 on account of his sixteen hours being up. Engineer Spohn dead-headed to Clinton and brought the train to Janesville with engine 85.

Engineer Cole is on the six o'clock switch engine today in place of Engineer Talmadge who is laying off sick.

Engineer Dudley and Fireman Dalton went south on an extra at 11:15 this morning.

M. H. Erdman and Machlaet Hoffmann in company with Fireman Parment are planning to attend a social gathering in the Pond Du Lac Auditorium this evening.

Chicago, Milwaukee and St. Paul Fireman, Jenny, who has been on 162 on the new line, went out on 105 last night with Engineer Palmer ostensibly for rest.

Fireman Shinn came in on an extra last night with Engineer Palmer and went out this morning on 91 with Engineer Schlotter.

Fireman Soliz took Jenny's place on 162 this morning with Engineer Moore.

The round house looked deserted this morning with every engine except the 851 on the road.

**BURGLAR ARRESTED AFTER HARD FIGHT**

Superior Man Finds Thief in His Home and Captures Him.

[SPECIAL TO THE GAZETTE.]

Superior, Wis., Oct. 15.—A force of men with a burglar who had been in the latter having to have several stitches taken in his head, ensued here last night when John Kotter returned to his home on an alarm from his wife, and found a man sitting at a table in the Kotter house.

The burglar, who gives his name as Ambrose Collins, says that he had been chased by a couple of men who tried to rob him and went into the house to escape them. Mrs. Kotter had heard the man enter the house and had hastily dressed, as it was about midnight, and rushed to her husband's saloon.

Kotter fired his revolver before entering the house as an alarm to the burglar. When he switched on the light after entering, Collins made a jump for him but was knocked in the face by the butt of the revolver held by Kotter. The case has been taken into court for settlement.

The launching of the floating drydock which has been under construction here for the past two months, took place yesterday. The dock was towed to its owners in Port Arthur, Ont., shortly.

**TWENTIETH CENTURY CLUB BEGAN SEASON**

Members of Clinton Club Enjoyed Original Program at First Meeting of Season on Monday.

[SPECIAL TO THE GAZETTE.]  
Clinton, Oct. 14.—The first meeting after the summer vacation of the Twentieth Century club was held at the beautiful home of Mrs. C. W. Collier on West Milwaukee avenue, Monday evening. The evening was most known as "privilege" evening, the committee in charge of the program for that evening being privileged to do anything they wish. The program for the evening is very carefully guarded and it might be a complete surprise to all except the twelve ladies on the committee for that evening. The spirit of fall and the mysteries of Halloween were very faithfully carried out from decorations to the end and the numerous decorations were very ingenious and appropriate. The refreshments were served in paper pumpkins.

Dr. Mary Montgomery has purchased the Hillman house and lot on the east side of Main street, just north of the old laundry building and will proceed at once to move the house back from the walk and to the north, and remodel it over into a modern home and office. It will be a great improvement to that side of the street.

J. Q. Shinn was up from Harvard yesterday on business and returned this morning.

Miss Selma Church of Chicago is spending a few days here the guest of Mrs. R. W. Choever.

J. R. Switzer expects to go up to the northern part of the state deer hunting, soon.

D. L. Loomis and son, Harry, are moving from the Hillman house to the rooms in the Woolston block on Front street.

H. B. Smith of Janesville was here today combining business and pleasure.

H. A. Moehlenpah and wife are celebrating their wedding anniversary today in a quiet manner.

Dr. and Mrs. W. O. Thomas, Mrs. Thomas' brother, Virgil Howard, and cousin, Miss Kirkham, visited in Rockford today.

Mr. and Mrs. E. B. Kizer are expecting Mr. Kizer's sister, Mrs. J. E. O'Hara, of Winchester, Ind., to spend the winter with them.

Charles McCommons has been having some excellent success hunting ducks lately and very generally remembers his friends.

**PAPER MILL BURNS DOWN AT ROCKTON**

\$75,000 Property Destroyed by Fire in Illinois City This Morning—

[SPECIAL TO THE GAZETTE.]  
Rockton, Oct. 15.—What is known as the Coons paper mill at Rockton was almost totally destroyed by a fire which started at half past one o'clock this morning. The loss on the building is estimated at \$75,000, \$25,000 of which is covered by insurance. The property was recently sold by E. N. Coons of Beloit to Chicago parties.

Harry McFadden, who came here from Chicago to take charge of the slating rink, is wanted by the police on a charge of forgery. He is accused of having signed his employer's name to a number of checks and cashed them. He has shipped out.

George B. Lewis, who is totally blind, fell down the stairs at his home and sustained severe injuries. Mr. Lewis was a pattern-maker and a few years ago lost the sight of one eye. This was followed by complete blindness.

Today is "Big Bill" day at the college and all work has been suspended for the time being. Those of the students who have cared to, have gone to the big hills north of the city, where a campfire dinner was served and a big program of sports is to be given.

The Second Congregational church has started a fund to erect a new church at Rockton. Mr. Starr is a graduate of Beloit college and a man with a remarkable career in this country, an immigrant from Sweden who endured all sorts of privations to work himself up. He entered the schools at Beloit and received his education there. He has become a very strong preacher.

N. F. L. Dance: Members of the city and National Fraternal League in this city and their friends enjoyed a dance held in their lodge rooms in the I. O. O. F. hall last evening. The dancing began after the regular meeting, at nine o'clock, and lasted until twelve.

Frank Monaghan, of Wausau, state deputy of the league, was present at the meeting and danced, giving a short speech before the members at the business session.

In Danger of Forfeiting Respect.

**MUCH INTEREST IN NEXT SUNDAY'S GAME**

Janesville and Beloit Teams Will Battle It Out on Scientific Grounds.

With Warhop of the New York American league team in the box for the Beloit players and Fleno of the Chicago White Sox on the mound for Janesville, next Sunday's contest between the two teams promises to be a most lively affair. Manager Ward of the Janesville team went to Chicago this morning in hopes that he might secure the services of the wonderful Dragoon of the Cubs, who falling in this will engage Fleno, who did such excellent work last Sunday, pulling Janesville out of several bad holes. Weather permitting, the crowd promises to be a record-breaking one as the two teams have been playing as fine ball as is often seen outside the major leagues and it is close and exciting enough to satisfy any fan who braves the cold weather for the sake of the sport.

**NEW PRESIDENT ASSUMES DUTIES AT FARGO COLLEGE**

Rev. C. C. Creggan Takes Place Of Dr. Vittum, Who Has Retired Because of Ill Health.  
[SPECIAL TO THE GAZETTE.]  
Fargo, N. D., Oct. 15.—Rev. C. C. Creggan, D. D., formerly of New York, today assumed his new duties as president of Fargo College. President Creggan succeeded Dr. Edmund M. Vittum, who retired at the close of the last term because of ill health.

**Talks on Snake Culture**

No. 29—The Deadly Barrel

A Missouri farmer whose apple trees were covered with attractive red apples, came to the conclusion that he

would fill his cellar with cider, regardless of expense. So he began buying up empty whiskey barrels to that end. The other day he needed one of the barrels for some purpose, and he selected a sound one, and applied a tight seal to the bung hole, in order that he might see the interior. The next thing he knew, he was pouring over

the trapdoor, with his whiskers on fire, and breaking the record of M. M. M. and Orville Wright. People who now him supposed that a meteor had broken loose from the solar system, and they looked at him through smoked glass, and took the roof right along with him, and it proved to be quite a job gathering him up and sorting out his various parts. It is supposed that the old whiskey barrel was filled with some sort of gas, which exploded when the match was used. Anyhow, the unfortunate farmer says that he will have nothing more to do with whiskey barrels, or whiskey either, and even the elder scheme doesn't seem attractive to him now. The story merely shows that it isn't safe to have anything to do with whiskey, or with anything that has had anything to do with whiskey.

**AN ITCHING PALM**

No Cure for It. Other Forms of Itching Preferred.

There is no cure for an itching palm—the money kind. Even possum, the new skin discovery, cannot help it. But when it comes to eczema, the most annoying of itching skin troubles, possum will stop the itching at once and cure the worst cases in a few days. So with hives, rash, scabies, split toes, piles, and scaly scalp, all of which are different forms of eczema, accompanied by severe itching and caused by imperfect digestion and careless diet.

Possum comes in two-dollar jars, but fifty cents' worth will answer in curing any of the diseases mentioned. It can be had of any druggist. The Health Drug Co. and the People's Drug Co. make a specialty of it.

That results are immediate will be amply demonstrated overnight by the use of the experimental sample which the Emergency Laboratories, 32 West Twenty-fifth street, New York City, will send free by mail, in plain wrapper, to any one who will write for it.

**WILL MAKE REPORT OF HIS LONG TRIP**

W. A. Meese Has Interesting Data for the Consideration of the Rock River Improvement Association Meeting.

One of the most interesting reports to be given at the coming meeting of the Rock River Improvement association meeting to be held here next Tuesday will be that of W. A. Meese. Mr. Meese, during the past summer, completed an inspection of the Rock river from its origin on the horizon through all its windings to Sterling.

Mr. Meese has been all along the stream, and made a stop at every place where the improvement will be of benefit.

Mr. Meese has traveled up and down the stream between Sterling and the headwaters in Horicon marsh. Some times he went alone, at others he traveled along the banks in an automobile and then for some instances he made a launch on the river.

He says that he has a mass of data that will go to prove conclusively that this beautiful stream should be improved and that it is practical to do this for a reasonable amount of money considering the benefits that will come as a result of such improvement.

He says that he finds the people in the cities and the villages along the banks to be in accord with the movement and that the enthusiasm is growing.

In the larger cities the prominent businessmen as well as the manufacturers and the owners of the power plants will welcome the improvement for it will have a tendency to lower the freight rates and improve the power developed at the dams.

On the river along Lake Horicon there is great enthusiasm and an organization developed that will give much aid in securing the end desired. He thinks that the enthusiasm for the improvement of the river is even greater in Wisconsin than it is in Illinois.

At the annual meeting of the River Improvement association Tuesday there will be some definite plans mapped out for prosecuting the work and it is likely that the part of the people along the stream will have in the proposed development, will be definitely decided upon so that the government engineers will be able to come to some definite conclusion what the benefits may be and what it will cost our Uncle Samuel.

## Library of the University of Wisconsin

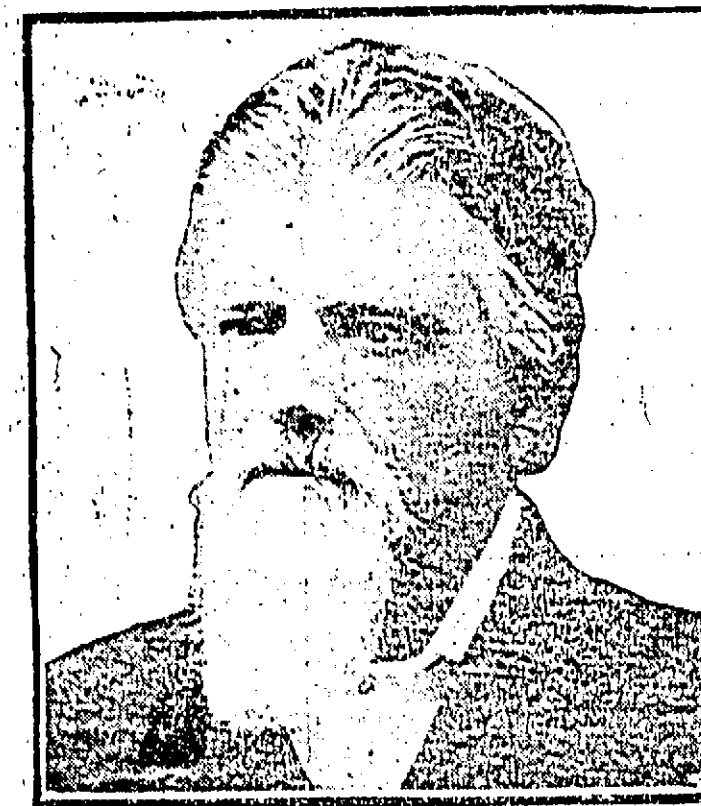

The University of Wisconsin is an institution of which all residents of the Badger State will justly be proud. Nor will they be criticised for the feeling since the object of their esteem is known favorably to the friends of higher education all over the habitable globe. Its birth was coincident with that of the commonwealth. In 1848 Wisconsin became a state, and three years later the university opened its doors to candidates for the rewards of advanced scholarship. Long years before that time its foundation had been provided for by those who recognized the value of education as a civilizing pioneer influence. Today it is acknowledged to be one of the best equipped and most liberally endowed seats of learning in America. Students residing in the state are admitted to all of its classes, except the law school, without tuition charges.

## Lincoln Statue at the University of Wisconsin

The heroic bronze statue of Abraham Lincoln shown in the picture occupies a commanding position on the upper campus of the University of Wisconsin at Madison. It is a replica of the noble seated figure of the great emancipator erected by the United States government and the state of Kentucky on the Lincoln birthplace farm at Hodgenville, Ky.

## Governors of Wisconsin

NELSON DEWEY—1848-1852.

Nelson Dewey, first governor of Wisconsin, was born in the town of Lebanon, Conn. Dec. 15, 1813, and came to Wisconsin in 1839, settling at Cassville, which he expected to be made the capital of the territory and ultimately of the state. He was a lawyer. In 1837 he was elected register of deeds of Grant county and in the following year district attorney of that county. He was a member of the territorial legislature from 1839 to 1846, serving as speaker of the lower branch in 1840. He was elected Democratic governor on May 8, 1848, just three weeks after the state was admitted to the Union. In 1850 he was re-elected, serving two two-year terms. After retiring from the office of governor he resumed the practice of law.

By RUTH CAMERON

**P**LEASE write to your girls and tell them to think a very long while before they refuse the good fellow a good man offers them, simply because they do not love him," wrote a bachelor girl.

"Ten years ago," she went on, "I refused a thoroughly eligible man who wanted to marry me, because I did not love him and I thought I would be happier to keep on with my work than to marry a man unless I loved him with all my heart."

"And now I am an old maid and I know I have made a mistake. My father and mother are dead and my two sisters are married. They love me, of course, but I am not by any means a necessity to them. I am always welcome in their homes, but I cannot help feeling that I do not belong."

"I have a host of friends that sometimes seem sufficient, but every once in awhile it comes over me that they are only friends, that while they are necessary to my happiness I am only incidental to theirs—not a contributing thought."

"When I am working I am usually pretty happy, but one cannot work all the time. I tried it once, so I know. And into the chinks between all the pleasures and all the work you can possibly put into your life, the bitterly empty moments are sure to creep."

"Of course, I do not positively know, but I am as sure as I want to be that I would have been infinitely happier in making a home for that thoroughly good man whom I liked and respected and who loved me than I am now."

"Please tell your girls not to follow my example."

I wouldn't dare say quite that to my girls, but I do ask them to at least think over her experience.

To marry the man she loves with all her heart is undoubtedly the best thing that can happen to any woman.

But unfortunately the chance to do that does not come to every woman and isn't it possible that to marry a good man who loves her and whom she likes and respects may be a better thing for some women than never to marry at all?

Mind you, I don't say for every woman. I think it is a good deal a matter of temperament. For the very emotional woman, for instance, such a course would be dangerous. If such a woman were tied to a man she didn't love she would be pretty apt to come to hate him.

But for the woman who is essentially a mother-woman, a homemaker and a home-lover there may be great happiness along this path.

"I don't think any woman ought to marry a man unless she felt she simply could not live without him," said a very intense young woman to me once.

That is all very well for her type of woman.

But there are other types.

There are so many considerations that enter into a matter like that—how much the woman likes the man, his circumstances, his disposition, her own, and a hundred other things—that I cannot say outright that I should advise any woman who is considering the subject to marry a man she did not love. But I can say that I should advise any woman, especially any woman over 25, to look well to the future, reckon fully her chances of meeting the right man, ponder carefully on her ability to stand being alone and not "belonging," before she says to the good man who loves her:

"I cannot marry you because I do not love you."

## Forty Years Ago

Janesville Daily Gazette, October 15, 1860.—Jottings.—It is estimated that there are over two hundred log cabins within the boundaries of Rock County. Simply barrels, uncoupled, and roasts and large sized dry goods boxes are now in great demand, owing to the scarcity of lumber.

The day on which Gen. Sheridan left Madison for Chicago a number of Janesville boys were at the depot, at that place, waiting for him, in order that they might secure his autograph. When he made his appearance they beset him, and two of them were successful. The general said he had no time to write his name for the rest of them, as the train was going, and he stepped aboard. But our little Janesville heroes were not to be balked in that way. They followed the general aboard and kept him at work, writing his name, all the way from Madison to the next stopping place, when having got all the autographs they wanted, they let the general off, cleared the train and footed it to Madison.

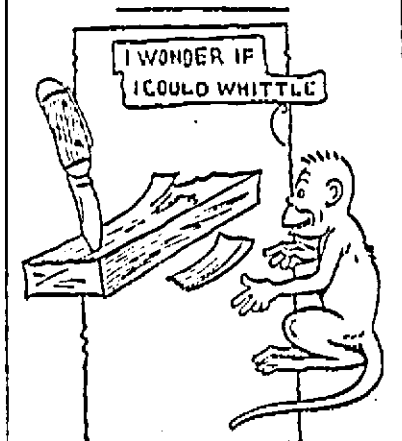

The Rock County So-Operative Life Association.—The organization of this association was effected last evening by the election of the following permanent officers:

President—J. C. Cobb.  
 Vice-President—S. J. M. Putnam.  
 Secretary and Treasurer—Geo. G. Williams.  
 Medical Examiner—Dr. J. C. Burbanks.

The association will be ready for business in a few days.

Improvements To Lappin's Hall.—Mr. Lappin is giving his hall a thorough cleaning over, and improving it in many ways. Those obnoxious posts in the center of the room are to be removed, a new and fast drop curtain has been painted, and new scenery is being ordered. The walls are to be covered with paper, and in short it is to be made altogether an inviting place. In doing this Thomas not only suits us but he suits the community.

—Dressing-Gown of Flannel—

For a simple little dressing gown for the woman of modest means the design above is excellent. This was made of soft flannel, with touches of tulle in self-tone. The waist is short and held just below the bust by a collar band of the material. The collar is round at the back, broadening into wide revers in the front, where it meets with a bow and ends of tulle. A chemise of lace bound with tulle is inserted at the neck. Even in negligence the sleeves seem unable to resist the tendency to cling close to the arm, and in this case they are almost entirely without fulness. The skirt, like the waist, closes on the side and is semi-fitted.

## WISCONSIN EXHIBIT HAS ATTRACTED MUCH ATTENTION

The Wisconsin exhibit at the Illinois state fair, October 1st to 9th, was a surprise to the many thousands of people who saw it. There were many states represented to the exhibit, most of them expending many times as much money on their displays, yet it was a common expression of visitors that in quality the Wisconsin exhibit was the finest on the grounds.

Our grasses—clover, timothy and alfalfa—were superior to all others that a blue ribbon was given to all.

In potatoes, apples, squash, rutabagas, field peas and barley the Wisconsin exhibit stood as a class by itself. Our sugar beets and tobacco attracted much attention. The corn—Wisconsin No. 12—was displayed in the form of a stair at the foot of the grasses in a position that made its "golden glow" most noticeable. Many Illinois people said this corn was as good as they could grow in their counties, and several county exhibits testified to the fact. The remark was not made as fine products on our "2000 land." Why, then, should we not be receiving many settlers for our over-landed from central Illinois where land ranges from \$150 to \$250 per acre? Simply because we have not sufficiently shown them what our lands will produce. Scores of visitors told the writer that they had read his articles in the papers and had wanted to actually see our products. In view of the fact that hundreds of thousands of people visit this fair, where no charge is made for space, and where the fair management bestows every possible courtesy upon exhibitors, why should we not continue to avail ourselves of this splendid means of informing the public of the opportunities yet prevailing in our uncultivated areas? No one was more impressed with our exhibit than the fair managers, who visited us repeatedly.

The circumstances under which this exhibit was prepared deserves mention. Near the close of the northern Wisconsin state fair it was learned that space could be had at the Illinois state fair. The chairman and secretary of the state board of immigration were there and decided to take advantage of the opportunity. Notices were sent to the daily newspapers and the exhibit was quickly forwarded. The necessity of forwarding everything by express rather than freight limited the size of the exhibit. The fact that an exhibit thus prepared was conspicuous in its superiority over all others in the important items of grasses, potatoes, barley, apples, squash, rutabagas, garden beans, peas, sugar beets, tobacco, and ranked at least even in many other products, suggests what can be done in carefully prepared exhibits in future years.

No one who has not been on the grounds at such points as Springfield can appreciate the misconception of the people as to Wisconsin's climate and products. Our corn—the boys' contest at the northern Wisconsin state fair—and our apples, pronounced by the superintendent of horticultural products to be the finest on the grounds, were such a surprise to visitors.

For a simple little dressing gown for the woman of modest means the design above is excellent. This was made of soft flannel, with touches of tulle in self-tone. The waist is short and held just below the bust by a collar band of the material. The collar is round at the back, broadening into wide revers in the front, where it meets with a bow and ends of tulle. A chemise of lace bound with tulle is inserted at the neck. Even in negligence the sleeves seem unable to resist the tendency to cling close to the arm, and in this case they are almost entirely without fulness. The skirt, like the waist, closes on the side and is semi-fitted.

## He Passed.

I HAD never thought of life insurance until father put it into my head one day after witnessing a game of football. "Life," he said, "is a good thing for me to get ten or fifteen thousand on my life to leave to the children, and when I get that I want to have an office and make application. When it came to my occupation and I answered that I kicked the ball mostly, the man said to me: 'We shall have to put you under the 'extra hazardous' risk.' 'What's that?' 'The same as if you worked in a gunpowder factory and expected to be blown high sky any minute.' 'But where's the risk in football?' I asked. 'Then he showed me a list of the crippled and killed for the last five years. There were names enough for a petition to the legislature. When I had glanced them over I said: 'But what has this got to do with me?' 'You play football.' 'Well, yes.' 'You may be killed any day by a kick.' 'Look here, old man, here's a list of pretty near a hundred victims, while I am as sound as a nut. Why? Because I have a little way of kicking the other players and none of them have a way of kicking me. Those victims are all my victims, and there'll be a dose more before now. Can't you see the difference between the kicker and the kicked?' 'Why, I think I can, now that you mention it,' he replied, and I was passed in at the same rate as a clerk in a clothing store." ## Cotton Holds Wrinkles—Wool Holds Style

You don't care what your clothes are made of—all you want is the result.

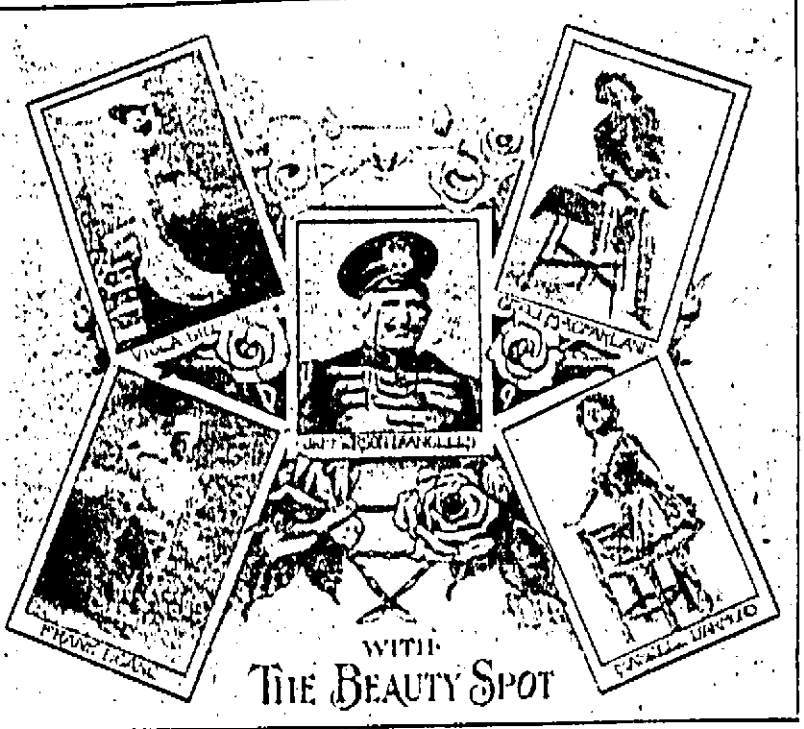

If somebody could invent a way to make more lasting and more stylish clothes out of part cotton than out of pure wool, you would prefer the cotton.

## Clothcraft All-Wool Clothes

But the fact, as you know, same prices as part-cotton clothes. are that part cotton clothes hold wrinkles and keep shabby while clothes of pure wool hold style and keep shapely.

Clothcraft Clothes are pure wool out about these clothes, we won't be able to get enough from the each suit. And they sell at the factory to supply the demand.

THE GOLDEN EAGLE

Did Uncle Sam but boast a crew like this on any battleship that went to engage the nations of the world in deadly combat, the battle would be a brief one, as no enemy could resist the winsome charms of such an organization.

The "pony" baseball team, composed of the members of "The Beauty Spot" are receiving offers for ball games from every city they will play at this season. Frances Burns, the charming captain, has taken up quite a number of these challenges.

It is so unusual a thing for every newspaper critic in Chicago to agree unanimously with his brothers as to the merits of a musical comedy that the fact that this rare avails occurred in the one instance of the first performance of "The Golden Girl" that it should be loudly proclaimed; but when these same papers continue to review it for the second and third time, it must indeed be a play of more than ordinary worth. Such was the case with this big Chicago success. There are a few excerpts from the Chicago dailies concerning its premiere:

"This new play seems to be the best in all its parts of anything yet

produced."—Examiner.  
"The Golden Girl" will be seen at the Myers theatre, Tuesday evening, Oct. 19.

"Little Johnny Jones," which is now the most famous of all musical shows will be presented in this city at the Myers theatre, Thursday, Oct. 21. When our theatre-goers will have an opportunity of witnessing one of the most mammoth and complete productions and one of the most successful plays that has been presented for many years. "Little Johnny Jones" comes with the endorsement of all the leading cities, while the metropolitan press has been more than enthusiastic in pronouncing it the most original and entertaining performance of its kind that has ever been presented. New York crowded the theatre all last season, Boston for several weeks, Philadelphia for four weeks, while in Chicago "Little Johnny Jones" secured the remarkable run of over three months. It is promised that when "Little Johnny Jones" is seen in this city it will have the same production in every detail and the same gorgeous wardrobe that made its engagement in the principal cities notable last

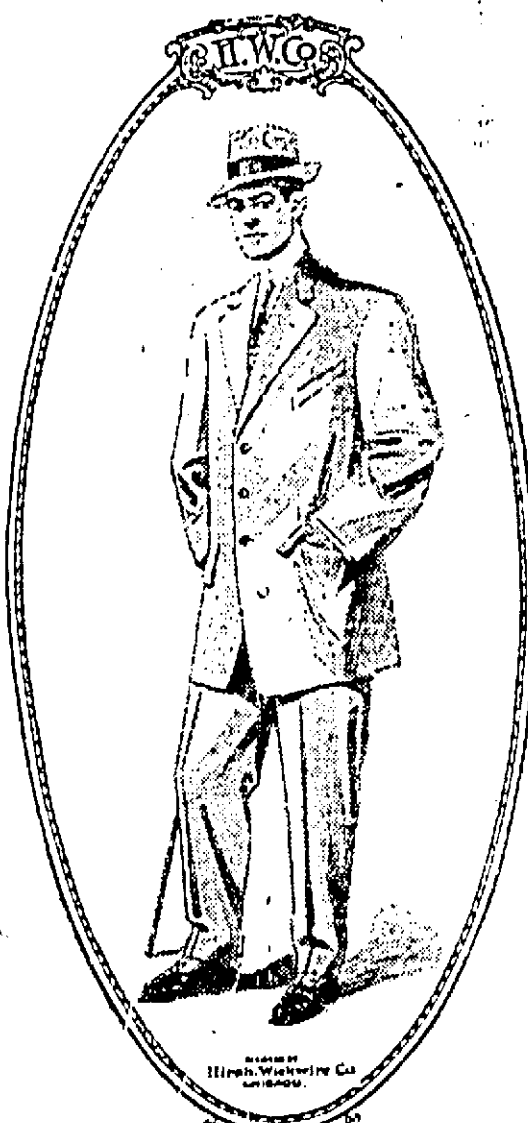

JIMMY LUCAS, AS "CADET CARTER" IN "THE GOLDEN GIRL," OCT. 19 produced at the La Salle. \* \* \* The play jumps from ray quib to pasodoble with the agility of a mountain goat. \* \* \* The score contains several big song hits. \* \* \* The production is well staged. —Chicago Tribune.

"The spectacular effects, gorgeous costumes and general brightness of this new musical comedy fairly took the audience off its feet." —Chicago Daily News.

"The Golden Girl," an attenuated musical play, in jesting guise, was presented at the La Salle last evening in a blaze of color and gorgeous costumes. The music is bright, possessed of graceful melody and rippling with catchy rhythms. The lines are a mixture of excellent comedy dialogue and port bids for laughs. The dances are energetic. It is a clean play. The cast is competent and the chorus of unusual excellence. —Record-Herald.

"The Golden Girl," presented by the new La Salle company is without doubt the best thing yet given the public at this popular playhouse. The Golden Girl entered with a swirl of banners and made her exit in a blaze of glory. That who caught on, admits of no doubt whatever, the songs are

A GREAT SHOWING OF FALL AND WINTER STREET AND DRESS SHOES.

Handturned and Goodyear welt, sewed soles, military and Cuban heels, viel kid, gunmetal calf-skin and patent calf-skin leather, lace, button and blucher models. The famous Solby and Queen Quality Shoe at .....\$2.50, \$3, \$3.50, \$4

## PUBLIC CONFIDENCE

Is the foundation upon which this and every successful commercial institution, must rest; the people have shown, and are showing faith in Rehberg's, faith in the merchandise we sell, and in its methods of doing business, by the bestowal of a great patronage; this confidence we prize more highly than any other of our assets, and in the selection of our fall and winter stocks have endeavored to further emphasize your worthiness in the eyes of the clothes-buying public; we invite attention to the superior garments of the Hirsch Wick-wire Sophomore and Viking Systems; the prices range from .....\$15.00 to \$30.00

In addition you will find here the clothes of all the other great makers, the prices ranging from \$10 to \$30; we insist upon your investigating our claim in behalf of the big line of men's and youths' suits at \$18.00; we make the claim, and it cannot be successfully contradicted, that to duplicate our suits at this price many stores in and about Janesville will charge you not less than \$27.50; the line includes suits of pure all-worsted fabrics, also chevrons, cassimeres and tweeds, newest weaves and patterns; every suit splendidly lined and hand-finished by experts .....\$18.00

Our contention now is, and always has been, that the store ambitions to serve the community at large to the best advantage must strive for volume of business, thus increasing its purchasing power, by entering to the masses as against the classes; every man may have his clothing wants satisfied here—no matter how much or how little he wishes to spend; we have in mind two lines of men's and youths' suits which we ask you to take particular notice of while in the store tomorrow; we refer to the immense lines at .....\$20 and \$25

## Best Assorted and Most Complete Stock of Overcoats in Southern Wisconsin

It is little wonder that Rehberg is known far and near as "the home of the overcoat;" if any clothing store in Janesville is entitled to this distinction it is Rehberg's, for certainly no other approaches it in variety of styles and patterns shown, or in value-giving; hundreds of overcoats for men and youths, exhibited on one great floor, is a sight worth witnessing; the prices range from \$10 to \$30; come in tomorrow and look around; if not ready to purchase, it won't be amiss to pay us a visit anyway; ask to be shown the large line of overcoats at .....\$12.50, \$15, \$20 and \$25

trades as the highest quality possible to obtain; to sell at .....1, 1.50, 2, \$2.50

This season we are making special efforts to supply greater assortments of medium priced shoes for men. While we have not sacrificed anything in the way of style, yet we offer men's shoes in greater values at \$2.00, \$2.50 and \$3.00, than any other store in Southern Wisconsin. Kneeland Shoes, the finest \$4 shoe for dress wear.

Bostonian Shoes, at \$3.50 and \$4.00, stylish and durable.

## Save Money And Health

Dr. Shoop's Health Coffee goes three times further than real coffee. To protect and safeguard your health, to get a highly satisfying, wholesome, coffee-like table drink, just make a single test of Dr. Shoop's Health Coffee and find the surprise that actually awaits such a test. Its superior flavor is that of true genuine old Java and Mocha, and yet there is not a single grain of real coffee in it.

And Health Coffee "is made in a minute". No 20 to 30 minutes tedious boiling is necessary at all. Being made from pure toasted grains, malt, nuts etc., it is truly food-like, healthful and wholesome, and is a splendid safe drink for the children as well.

Get Health Coffee from your Grocer and follow simple directions printed on each package. Then tell your neighbor-please, how good Health Coffee really is.

Give your stomach "a square deal" by eating

## Sale Notice

By the order of the trustees in the matter of A. J. Schrader and Company, which was declared bankrupt, the entire stock of fall and winter goods has been placed in our hands to be sold regardless of cost.

The store will be closed Monday and Tuesday, October 18th and 19th, in order to arrange and mark stock

CONSISTING OF \$25,000 WORTH OF SUITS, OVERCOATS, HATS, CAPS, FURNISHINGS AND SHOES, FOR MEN AND BOYS. These goods will be shipped in carload lots, including all the stock controlled and owned by A. J. Schrader & Co., of Ashland, Wausau and Milwaukee, doing a wholesale and retail business. Will be sold without reserve at public sale, beginning Wednesday, October 20th, 1909. The sale which we conducted for the trustees of the Farness bankrupt stock last spring was so successful and sold in such quick time that the trustees decided to place the entire stock of fall and winter Suits and Overcoats of the bankrupt firm of A. J. Schrader & Co. with us to sell, and in order to dispose of them quickly we place them at low prices never heard of before. Come and convince yourself at our store room located at 20 South River Street, Janesville, Wis. If you want to save good money, buy your winter outfit now at the Gigantic Bankrupt Sale. The most astonishing price reduction ever heard of. All new goods, made for fall and winter. A chance to buy your new fall and winter Suit or Overcoat now. We will save you one-half or more on every article in the store. Another tremendous bargain for everyone. It is good news to the people of Janesville and surrounding territory. You cannot afford to miss this sale, the greatest bargains of your life; it's your gain and the creditors' loss. Just judge the many bargains by the few quoted below.
